We have a tranch rational of four miles in length, from WaltePlacon to Canatantine, and thence it has been extended eightmiles, to Three Rivers, which is in the direction of Kalamanoand Syand Rapids, and to which it has been proposed to extend
the same by a new company.

We have also a branch rairond from the main line of the road
at Balleytown, in the State of Indians, extensing north-eastcrity footteen miles, to Michigan City. This road was constructed noder the laws of the State of Indians, which were
passed for providing for a rairond connection between Michigan
City, through the State, to the line of the state of Indians.

This law of the State of Indians which provides for this railroad connection between Michigan City and the Hillude State
line, and under soft to carry out which this raid was constructed,
is believed to be the only provision for a railroad from that city
around the head of Lake arichigan.

We have also in process of construction a railroad from Elkhart in Indians, on the main line, directly to Toledo, a distance

Another section declares that if the company shall complete the salloud within a given time, that then "no charter shall be "granted to any other company to construct any other road or "roads on the vicinity thereof, which would insterially diminish, or interfere to juriously with the profits of said road, for "ten years thereofer, without the consent of said company."

Our road was completed in good faith within the time allowed, and we have even no consent to the authorizing or constructing any interfering road. Our rights have been interfered with and our road crossed, without right or color of title, by a railroad in our vicinity, against our protest and remonstrance, and the matter is now pending in the contract of the State of Indians, in which it is to be accided whether we shall be protected under these provisions, upon the good faith of which the share holders of this company have expended their money and commended their road.

Our road is also crossed in the State of Illinois, where we have the complete title to the land, and where the crossing is a naked treepars, and for which we may bring an ejectment, as has lately been held by the Supreme court of hit State.

This cempany, jouinty with the Chicago and Rook island railroad company, the free miles of road upon which both campacies onlet the city of Chicago, upon which we have lately graded and laid a track for the separate use of the company, and the other companies in the city, upon which it is proposed, and we now desire, to erect satisfuely passenger be delayed without injury to the compani

The Wabsah Valley railroad comes on to this depot, and the Dayton and Michigan road, now in construction, will terminate here. So also the proposed railroad from Detroit to To-edo will make this its terminas. These grounds are ample, and the consection with the lake navigation offers the best facilities for the exchange of freights and travel.

A large passenger and car house is being built by this compagy. It is of brick, covered with tin, and will soon be compacted. It is 400 feet long and 160 feet wide, and is intended for
the joint use of all the companies.

A large union freight house, for like joint use, is to be erected.

We have erected a freight house of brick, with the roof, 600
feet long and 80 feet wide, with all needful fixtures, which is intended for our lake freight connection.

We are also building two grain houses, with a stationary engine between them, both of which frost upon the river, and are
